EXTENSIVE FIRE.

WEARLY A BLOCK DESTROYED.

Buildings Burned and Losses Sustained.

A fire broke out yesterday morning in the pre-mises occupied by Jackson & Steinmetz, moulders, of 231 and 235 East Forty-second street, which com-pletely desiroyed the building. The estimated loss is \$4,000. Insured for \$20,000 in the London, Liver-

pool and other companies.
Thomas Duffy, who occupied the third floor as a outding machine shop, lost \$20,000 and was in-ared for \$10,000 in the Andes Company of Cininnau and the Franklin, of Philadelphia.

About an hour after the are started a fresh breeze

sprang up, which took the fiames to 237 and 239 Bast Forty-second strept. These buildings were occupied by John McKenzie and George Weyder as

The injury done to the building and the losses sustained by the inhabitants have not yet been ascertained. Another two story frame house, also the property of James Mulvaney and occupied by Patrick White as a harness manufactory and by f. Stumer, a cigar manufacturer, was burned. Men, women and children dashed into the streets, carrying with them almost othing that they had picked up in the hurried

reil as a bakery. He was insured for \$2,500 on his nent. The building was insured in the Pacific In-merance Company for \$10,000. The flight of the enants was precipitate and uncalled for, as the engines soon checked the confiagration, and the actual loss to it was trifing.

The house No. 797 Second avenue, belonging to Mrs. Brown, was severely damaged, though the actual loss is not yet known. The first floor was occupied by a Mrs. Ealch as a dry goods store and explicitly of the Mrs. Ealch as a dry goods store and explicitly of the Mrs. Ealch as a dry goods store and explicitly of the Mrs. The first blook of the Mrs. The two story brick building No. 799 Second avenue, belonging to William Lewis, was tonched by the fire, but not seriously damaged. The first floor of this place was occupied by Peter Carroll as an oysier saloon, who sustained but a trifling loss. The lire is supposed to have been caused by the carelessness of some person on the first floor of Jackson as Steinmetz's building, where it originated, and owing to the bign wind blowing at the time it sisted out. Great fears were entertained that the entire block would succumb. The fire brigade, however, was soon upon the spot, and their crovis along saved it. At one time a large sik factory on the corner of Forty-record street seemed destined to be eaten up, but the wind changing, it was saved.

RACING AT MYSTIC PARK.

Second Day of the Bosten Jockey Club Meeting—Mary Louise the Winner of the Selling Race, and Tubman the Purse of \$606, Mile Heats.

The running meeting, under the auspices of the Boston Jockey Club, was continued to-day at the Mystic Para. The weather was disagreeable, a cold, uncomiortable wind prevailing, and the attendance was not so large as on Saturday.

The first event on the card was a selling race for all ages, a mile and a half dash, for \$500. The entries were:-J. H. Harbeck, Jr.'s bay colt Clarence; J. O'Donnell's gray filty Mary Louise; J. Coffee's bay colt by Bonnie Scotland, J. Donohue's bay colt Lord Byron and J. Boughrum's chestnut colt J. C. Beenan. In the pool Mary Louise was a favorite, selling for \$100, while Lord Byron brought \$46 and the field \$18. At these rates considerable business was done. After one falso start was made, in which the Scotland colt ran once around the track, the rap on the gong sent them off well together. Byron jumped off with a lead, followed by Cadence and Mary Louise, the Scotland colt next and Heenan in the rear. As they passed the stand, completing the first half mile, Byron continued to lead by an open length. Cadence remaining a good second. In this way they completed the mile, but as the horses entered upon the liast hall infle of the dash the jockey of the favorite called upon the filty and she responded so well that she passed Cadence around the upper turn, and at the head of the stretch gave Byron battle, whom she soon polished off, and won by an open length in galiant style. Cadence was third, the Scotland colt and Heenan in the rear. Time, 2:42%.

HORSE NOTES.

Mr. Wallace has changed the name of his sorrel gelding Joe (who has a record of 2:25!4) to that of Triumph, by which name ne will be called hereatter. Mr. Garrison has a very fast and stylish mare by George M. Patchen, dam a thoroughored mare, that great taings are expected of next year, when she will be put on the turf. She is a brown, 15% hands, and it is said she can trot in 2:30 now.

R. J. Anderson has a very fast roan mare he uses for the road, that can stop a 35 clip, and is very good gaited.

Mr. Crevelling has a very promising colt by Morrill; be is a chestnut, of line action and one of the improving kind.

Mr. David Bonner is driving his fine gray filly on the road. She is by Edward Everett, dam the dam of Lottery, and is a very promising young mare.

Mr. Ridabock has given his old horse quaker, well known on the road, to a brother in Councetleut, where he will live in clover the rest of his life, quaker has been a tried and faithful servant.

Mr. M. McGowsan has a very fine lour-year-old, 15%, bay stallion, by Edward Everett, dam a Star mare, that is considered by horsemen one of the finest in the country. The stallion has never been regularly trained, but can trot a mile in 2:40 and has an improving gait.

The love of horses seems to be on the increase Mr. Wallace has changed the name of his sorrel

finest in the country. The stallion has never been regularly trained, but can trot a mile in 2:40 and has an improving gai.

The love of norses seems to be on the increase with New Yorkers, Judging from the lact that all the stables are ful to overdowing. The large boarding stables have to the many of their boarders out on the floors, and the owners of some horses consider themselves fortunate to get them accommodated at all.

Spinal meningitis still prevails to some extent, and occasionally claims for a victim a valuable animal accustomed to good care; so it would seem that indifferent board and lodging have little to do with the contraction of this disease. Some veterinarians assert that it affects the constitution of many horses so that they are of little value after laving the disease, even if apparently fully recovered from its effects.

The roads are in capital condition, causing all the roadites to express themselves in grateful terms for the care and attention bestowed upon them.

The well known rotting horses Harry Harley, Pluto and Denmark are sojourning at Fleetwood Park.

Horsemen are at present greatly exercised over the question of which is the proper and best way of shoening a horse. Our hard roads an untilply diseases of the feet in an alarming way; so it is a question that affects the powers of all norse owners, and they naturally desire a speedy solution of it.

YACHTING.

The Livenin Repudiated.

To the Editor of the London Standard:—

SIR-I beg to object to the word "International." Sucn a term in the United States, if not in this country, implies a match between the fastest and best yachts of England and the United States, or a trial of skill between the two countries in the building of swift yachts. It is a fact well known to the yachting men in New York that the Livonia is very far from being the lastest yacht in England; in lact, that she has been badly beaten by many yachts this senson. But it is not known to the general public in the United States, or even to the people of New York. If the owner of the Livonia chooses to match his yacht against the yachts belonging to yachting men of the United States, let the match be called by its proper name. It is a private match, certainly not an "international." To sail an international match when the skill in naval architecture, and also the skill and pluck of our saliors is to be tested, our justest and best yachts would be selected. Such is certainly very far from being the case in selecting the Livonia; and, being jealous of England's renown as a naval power, I, as well as many hundreds, object to the race between the Columbia and the Livonia being termed an "international race." I am your obodient servant,

PROBABLE MURDER.

A woman named Mary Kenly, fifty-five years of age, and living at 67 Greenwich street, got into an altercation yesterday with Margaret Ryan, who lives in the same house, and threw a teacup at her, fracturing her skull. The wounded weaman was taken to Park Hospital, and but slight hopes are entertained of her recovery. Mrs. Kenly has been arrested.

FINANCIAL AND COMMERCIAL.

MONDAY, NOV. 6-6 P. M. On 'Change to-day wheat was better, with considerable activity in the market. Cotton was strong, but without essential change in price.

MONEY EAST.
The money market was easy at seven per cent on stocks and at six to seven per cent on government collaterals. Before the close of banking hours the stock brokers were freely supplied at five per cent. Loads were made for two days. The banks have generally notified their customers in Wall street that they will cail no loans to-morrow, election

Prime commercial paper was in better request, and the range of quotations for its discount has nar-

rowed to 9 a 15 per cent.

Foreign exchange was dull on the basis of 108% a

 The government list was quiet and steady, prices exhibiting hardly a ripple of change. The following were the closing street quotations:—United

STOCKS DULL AND STRONG.

The stock market was dull, but very strong, prices on a light volume of business slowly improvmg, until at the close the advance ranged from 1/2 to 2% per cent—the latter extreme being reached by Lake Shore, which sold at 103%, and closed with that price bid for more. The dealings in Lake Shore were somewhat confused early in the day, after the separation of the scrip, and for a time some of the "lightning calculators" among the brokers made handsome profits by buying the old stock and selling the equivalent in new stock and sorin, which were worth, together, as much as one per cent more than the stock, "privilege on." Very naturally the profitableness of this employment brought in so many tradesmen that competition soon killed the profits, and stock, stock and scrip at last found their common level. The board will not call the old stock after today, but, as in the case of New York Central, leave the brokers to deal in it until the books close. The books have not been closed as yet, owing to the in-ability of the Trust Company to make the transfers. Pacific Man was weak and declined to 45,

CALVARY CEMETERY.

You have done a noble work in calling attention in your issue of Sunday last to the shameful negices of Calvary Cemetery. Now, Mr. Editor, can you of Calvary Cemetery. Now, Mr. Edilor, can you not call attention to the Cemetery of the Holy Cross, Flatbush, L. I., the burns ground for the Catholics of Brooklyn? After an absence of four years i visited the cemetery last week, and the same in every respect can be said of it as of Calvary. The entrance to the ground is characterized by the appearance of a number of pauper graves, and the mortuary chapel is a disgrace to any civilized community.
